## About Chesapeake Montessori School

Chesapeake Montessori School, founded in 1977, is an independent, co-educational school for children from ages 18 months – 12 years (nursery through grade 6). We help children become confident, respectful, independent individuals with well-developed powers of reasoning and enthusiasm for learning. Using the Montessori Method, we are committed to providing a strong individualized academic experience that lasts a lifetime.

The Toddler Community (ages 18 months – 2-1/2 years) is designed to foster each child's development of language, coordination of movement, and independence.

The Primary classroom (ages 2-1/2 - 6 years) has five areas: practical life, sensorial materials, language, math and history/biology/geography. The program includes French, art, music, and outdoor play. Young children enjoy specially prepared classrooms and materials; all designed out of respect for the role children play in their own development.

The Elementary classroom (grades 1 – 6) is designed to foster the continued development of each child's mind and character. The classroom work emphasizes basic skills and critical thinking, and it encourages children to explore everything from the origin of the earth to the reaches of outer space.

Chesapeake Montessori School is known for its excellent preparation of children for entrance into middle school. We enjoy a committed staff along with supportive parents and alumni.

Chesapeake Montessori School has a non-discriminatory policy with regard to race, religion, and national origin, both in admission of students and in the employment of faculty and staff.
